SAP to Work With Specialisterne to Employ People With Autism

May 21, 2013 | SAP - Corporate

WALLDORF, Germany - In support of its mission to help the world run better and improve people's lives, SAP AG (NYSE: SAP) today announced it will work globally with Specialisterne to employ people with autism as software testers, programmers and data quality assurance specialists. SAP sees a potential competitive advantage to leveraging the unique talents of people with autism, while also helping them to secure meaningful employment. It is estimated that one percent* of the world's population is affected by autism (Autism Spectrum Disorder).

Let us build the capacity together for one million meaningful and productive jobs for people with autism and similar challenges.
